I conducted a survey where 21 student of 8-th and 9-th form took part in order to determine the level of aggression. The aggressiveness indicators in our school do not exceed the limits of the norm. That means that everything is fine.

Call Out: Inform authorities Call 1-1-2 and tell them the name of shooter (if known), shooter description, location, number and type of weapons.

Hide Out: you may not be able to get out. Hiding place should be well hidden and well protected. Avoid places that might trap you or restrict movement. Find a room that can be locked with objects to hide behind. Blockade door with heavy furniture. Turn out lights. Be totally silent. Turn off noise-producing devices. If there are two or more of you, DO NOT huddle together; gives you options and makes it harder for the shooter. Quietly develop a plan of action in the event the shooter enters. Remain calm

If there was no choice but to resist

Attack the shooter with any weapon you can. Use scissors, glass, or any other sharp or heavy objects to attack the shooter as soon as you are in close proximity. Even a sharp ballpoint pen is better than nothing. You're fighting for your life and every second counts.

When the Police comes:

- Everyone in the building will be considered a suspect.
- When the team of officers makes contact with you, do not run towards them. Keep your hands visible and do exactly what they tell you to
- Anyone that is armed or moves on them in what can be perceived an aggressive manner.
- If you are near the suspects when officers make entry, the best thing to do is drop as low as you can and stay there, with your hands visible.

Thank you for attention!
