

## Biofireplace of the FF-1

Biofireplace of the FF-1 - a desktop variant of a biofireplace. It has a compact and modern design. Glass walls on both sides give an excellent overview of the fire and make the biofireplace safe to use. The frame of the tank is tempered heat-resistant glass, which performs a decorative function and perfectly supports the flame - components of this model.

Additional costs for the installation of the hood / chimney are not required, as no smoke is formed during combustion. The small size of the product makes the biofireplace convenient and it can be installed anywhere. The product is available in two colors: black and white.

### SAFETY INSTRUCTIONS

1. Entrust mounting equipment only to experienced professionals and strictly follow the provided safety instructions. Improperly installed equipment may result in property damage, personal injury and/or liability for the installing contractor.
2. Only use appropriate fastening hardware.
3. Always make sure to securely use and lock all mounting bolts. Loose bolts may become unscrewed over time due to vibration which will then create a safety hazard.
