

Elena's Portfolio

Hello! My name is Elena.

I work with texts: I write original essays, develop scripts for events, edit sensitive topics, and create artistic projects in collaboration with artificial intelligence.

Each text for me is more than just words — it's a story waiting to be heard.

This portfolio includes a small selection of my creative works. Full versions of the projects are available in separate entries.

1. Mini-essay “Reflections” (from the series “Quiet Meaning”)
2. Text editing project on emotional burnout (before/after)
3. 90th Birthday Event Script (excerpt)
4. Project “The Forgotten World” (poetry and AI-generated illustration)

If you're looking for a thoughtful writer who pays attention to tone, flow, and feeling — I'll be happy to collaborate.

I'm open to meaningful projects with heart.

Sincerely,

Elena
