

The Innovative Vacuum Cleaner

*If you are a very lazy person and like to lie on the sofa all day or vice versa you are at work all day and don't have time to clean your flat, then this device is just for you! This labour-saving device is called **Philips Smart Pro** vacuum cleaner and you will be able to take a step into the future with this home appliance. It has a variety of innovative functions.*

- ⇒ On the sides there are two brushes that remove every mote from your floor.
- ⇒ Offers a 24 hour scheduling function so you can program your cleaning session in advance. You can do this using the app on your smartphone or a special control panel.
- ⇒ Can do the cleaning not only on a smooth floor, but also on a carpet surface.
- ⇒ Very slim (5sm width), can easily clean under low furniture.
- ⇒ With the help of the special sensors it detects the stairs and can easily cross the barrier using the built-in additional wheels for descending and ascending the steps.
- ⇒ You can connect your smartphone with the vacuum cleaner using the Bluetooth technology and enjoy your favorite music, played by the robot.
- ⇒ Very economical, can work 150 min without charging.
- ⇒ Weight only 2 kg.

With this device you will forget about back pain and lack of the rest. Live at your pleasure in your clean and shiny flat.

P.S this device doesn't exist in real life, it's just a sample of the text
