Services

Regular Maintenance (Pruning, Planting, Cleaning, Restoration)

Green spaces require care, and we provide a full range of maintenance services. We perform seasonal pruning of trees and shrubs, plant new greenery, remove leaves and weeds, and restore lawns and flowerbeds. Regular maintenance not only preserves the garden's aesthetic appeal but also prolongs the life of plants.

We are a team of professionals who are in love with nature. Our mission is to transform any space into an oasis of harmony and beauty. We have been engaged in landscape design, creating gardens and green areas for more than 10 years.

We know how to make your garden a place of inspiration, relaxation and tranquility. Our experts take into account every detail - from the composition of the soil to the unique needs of the plants.

We use modern technologies such as automatic watering systems and vertical gardening to keep your garden looking its best all year round. Trust us and we will give you a green corner where nature comes to life!

How we work

01 Consultation and analysis

We discuss your wishes, inspect the site and analyze its features (soil, lighting, climate)

02 Project development

Our designers create a unique plan for your garden or green area, taking into account every detail.

03 Preparing the area

We prepare the site for landscaping: we clean, fertilize the soil and install the necessary systems (watering, drainage).

04 Planting

We plant selected plants, trees, flowers and create landscape elements in accordance with the approved project.

05 Service

Our experts provide regular maintenance for your garden, including pruning, watering and pest control.

גנים אנכיים

קירות ירוקים ומחיצות חיות הם לא רק יופי, אלא גם תורמים לסביבה בריאה. אנו יוצרים גנים אנכיים לבתים, משרדים, מסעדות ומרחבים ציבוריים. הם מטהרים את האוויר, יוצרים מיקרו-אקלים נוח וחוסכים מקום. אנו מציעים גם קירות חיים מצמחים טבעיים וגם קומפוזיציות עם טחבים מיצבים שאינם דורשים תחזוקה.
