WORK EXPERIENCE

Full Stack Developer

Saasjet

November 2023 - current | Ukraine, Ternopil

- Drove end-to-end development of **Smart Forms for Jira** and **Business Process Manager**: dynamic form builder, external access controls, status transitions, post-submission messages, issue creation and auto-add rules.
- Performed a large-scale **refactor of an open-source formbuilder** to fit product needs (validations, field dependencies, access rules), improving stability and the authoring experience for complex forms.
- Developed Chrome extensions for capture a selected area and annotate directly on pages - **Free Screenshot Capture & Annotation Tool**. Fast task creation with screenshots/attachments - **Capture in Chrome for monday.com & Jira**.
- Introduced **Redux Toolkit** and a typed **Axios** data-access layer with interceptors. Added tests with **React Testing Library**, standardized **ESLint/Prettier**, and raised overall code quality through reviews.
- Implemented exports & docs generation (**ExcelJS**, **jsPDF**, **pdf-merger-js**), analytics (**Hotjar**, **GTM**), charts (**Highcharts**, **react-apexcharts**), and drag-and-drop UIs.
- Worked with **Atlassian Forge/Connect**, **Jira Cloud REST API**, webhooks, and service integrations.

Freelance

May 2024 - current

- **Developed a CRM system** for managing employee data: roles, filtering, CSV export
- **Workflow Builder** to visualize business processes (drag-and-drop nodes and connections).
- **Built a Loom-like application** with screen recording, audio capture, and shareable links
- **Optimized web applications** by reducing bundle size, implementing lazy loading, and improving performance
- **Refactored codebases** by migrating to TypeScript, splitting components, and enhancing architecture
- **NPM package** providing developer-friendly utilities and APIs.

CAREER OBJECTIVE

Front-end / Full-stack JavaScript engineer with deep Atlassian experience (Forge & Connect). I build Jira apps, internal CRMs and analytics dashboards, npm packages, and Chrome extensions with a focus on performance, clean architecture, and developer experience. Open to front-end or full-stack roles where I can ship end-to-end features and own third-party integrations.

SKILLS

- **Frontend:** React, Next.js, TypeScript, Redux Toolkit, RTK Query, React Testing Library, Atlassian, MUI, TailwindCSS, React Flow, AG Grid, Emotion, LESS, i18next, Highcharts, jsPDF
- **Backend:** Node.js, Express, RESTful APIs, OAuth 2.0, Webhooks, JWT, Agenda, Multer, Mailgun.js, hbs
- **DB:** MongoDB, SQL
- **Atlassian:** Forge & Connect, Jira Cloud REST API, JSM, Jira Assets
- **Tooling:** Git, Turborepo, Vite/Webpack, ESLint, Prettier, Jest
- **UI/Canvas:** Fabric.js
- **Chrome Extensions:** Shadow DOM injection, camera/mic permissions, screenshots, screen recording
