# ABOUT US

Best Auto Market is one of the world leaders in online auto components trading. There are more than one million items in the product catalog, which are successfully delivered around the world.

More than a year ago, the company's marketers developed a global development plan for Best Auto Market based on affiliate marketing, where the users are the main scaling engine on the Web. This will significantly reduce advertising costs and allow us to distribute the advertising budget among the participants.

Thus in the middle of last year, the WFC (World Financial Connector)-Market platform was launched. The platform provides a unique opportunity for residents of any corner of the Earth to open their own automated online store selling car spare parts and receive a stable daily profit without special knowledge and skills, and taking no more than 30 minutes of their time a day.

## YOUR OPPORTUNITIES

Best Auto Market is primarily an online store where you can buy not only car spare parts, consumables and other automotive products, but also actively promote your own Vitrine, earning up to 10% per day from your team's trade turnover. If you prefer passive income, then it is enough to open a trading account and receive sales revenue between 1.7 and 3.7% per day with the possibility of daily money withdrawal.

# MARKET

According to the data, the total global growth in sales of car spare parts and accessories in the period from 2020 to 2021 was more than 50%, while sales in the online segment grew by more than 100%. This suggests that not only a global trend in Internet sales has been created, but this dynamic will continue in the next 5 years. Don't miss your chance to be part of this process!

**You open a trading account**

**Your money is automatically distributed in the Best Auto Market trading turnover**

**You receive the first profit in exactly 24 hours**

**The contract is valid for one calendar year from the date of opening a trading account**

# RISKS

Unlike the investment environment, where companies' activities are associated with constant and high risks, Best Auto Market is exclusively a trading company. By opening a trading account on the wfc-market.com platform, you become part of the global trading processes and begin to receive your profit selling car accessories the very next day. This is what makes our platform unique.

Today, the share of private traders in the total turnover of Best Auto Market is no more than 30%. This means that the main financial risks are borne by the company and not by its private partners. However, the general dynamics of the company's development and global indicators, financial analysts do not see any particular reasons for pessimistic scenarios for at least next 5 years.

Best Auto Market is not a startup that requires investment for development. We invite you to become part of a successful business giant. Our task is to create a partner network, where everyone not only makes a significant contribution to sales development, but also can get financial independence and prosperity.

# WORKING MODEL

It is obvious that sales on Best Auto Market can provide not only a consistent high income for you, but also carry out dynamic development of the company, increasing the total trade turnover and the number of partners around the world.

# Best Auto Market GUIDE

## Wahida Mansoor

*Best Auto Market founder and CEO*

Wahida Mansoor is an automotive industry manager with more than a decade of experience, who in 2018 for the first time came up with an idea of creating his own global marketplace for automotive products. According to his plan, the site would have the following fundamental characteristics: low prices, high level of service, delivery anywhere in the world, and an extensive catalog.

In 2019, Wahida Mansoor invited independent marketers to design a company development model based on affiliate marketing, where platform users could not only carry out their own trading activities, but also receive significant benefits from the active promotion of Best Auto Market services.

So, a few months later, the wfc-market.com online platform appeared, which soon gained deserved demand in various countries, including the USA, China, India, and Russia.

## Phil Davis

*Managing Director*

After joining Best Auto Market as an advisor in 2019, Phil was appointed to the board of directors in June 2020. Prior to that, he had spent eight years at Mastercard® Worldwide as Vice President of Business Development. He was responsible for implementation of new initiatives designed to embrace new products, technologies and strategic partnerships to drive growth in emerging markets across Europe. During that period, Phil established long-standing relationships with leading banking and payment systems, technology partners, and other key stakeholders, and became a recognized expert in payments.

Phil has had a successful and varied career in retail banking where he served as Senior Manager and Head of B2B Loans. Prior to that, Phil held positions at Samsung Corporation, culminating in the Regional Manager for the Middle East, where he spent several years developing Samsung brand perception.

# Best Auto Market GUIDE

## James Craig

*Director*

Craig is an experienced Financial Services Compliance / Regulatory Officer and MLRO who oversaw functions 1, 2, 10 and 11 for UK companies and international financial services. He has significant business experience and knowledge and a thorough understanding of the balance between risk management, regulation and performance. He has significant experience in the e-money and payment services industry, including advising on the design and issuance of some of the largest prepaid schemes in the UK and advising numerous prepaid organizations outside the UK.

## Tony Davis

*Chairman*

Qualified as a Chartered Accountant in 1979, Tony worked at a senior level in a variety of small, medium and large businesses, including market research, sales / marketing, and IT. Since 1995, Tony has held a number of senior financial positions at Microsoft, and in January 2002, he oversaw the management buyout. Thanks to Tony as MD and FD, he and his three partners successfully ran the business for four years, turning £ 5 million into £ 25 million before successfully selling it off to a group of private investors in January 2006.

Tony started his own professional accounting practice in 2007 providing one-to-one finance direction for tech startups and developing service companies. Tony has been a non-executive director at Best Auto Market since 2020.

## Claire Baxter

*Chief Financial Officer*

Claire joined the Company in June 2020 as Chief Financial Officer. It seemed to be a natural addition to the CFO role of the Best Auto Market's Director. Claire trained as a Chartered Accountant with the Big Four and has over 20 years of experience, more than half of which she has been in leadership positions. Among other things, Claire has served as Director of Corporate Affairs at a global electronic gaming company.

Claire has now taken over the UK finance function as a harbinger of the next phase of Best Auto Market's expansion.

**No financial risks**

**You can start trading from  
\$ 5 or 350 rubles**

**Detailed financial  
statement in your personal  
account**

**Passive income up to  
3.7% profit per day**

# WHY Best Auto Market?

The structure of financial interaction with partners excludes even the very concept of "investment". Everyone understands perfectly well that investments involve financial risks that you cannot influence. Our company is a trade organization where you receive royalties from the sale of goods in the amount of your trading account. By opening an account, you open your online store, where you receive your profit from sales every day, and trading operations work in automatic mode. Your money is backed by goods, not securities or stocks.

The popularity of the Best Auto Market platform provides a low entry threshold. You can start trading with a minimum amount of \$ 5 or 350 rubles. This is a great opportunity to test the system's performance with absolutely no risk!

Moreover, after registration, money will be credited to your trading accounts: \$ 5 for a dollar account and 350 rubles for a ruble account. Every day, this amount will be accrued profit, which you can withdraw after activating your trading account.
