

Hey, what's up, guys? My name's Woody, and welcome to my new video. Today, in this video, we gotta choose the right house to survive in Minecraft. The thing is, each house will have challenges related to its color that we need to pass. And at the end of each one, something unexpected awaits us.

Alright, guys, let's not waste any time and start with the first red house. I wonder what challenges await me there. Oh, it seems there are some red lasers, and I need to find a way through. Alright, let's try sneaking through sideways. Yeah, carefully, carefully. Okay, we made it! Phew, glad I didn't touch that laser. That was pretty easy. I'm like a pro at dealing with lasers.

So, what's next? Another laser? Alright, let's bend down and be cautious. Yeah, nothing too complicated here either. Alright, guys, looks like we need to jump over this one. Let's jump and move forward. Yeah, just like that, nothing too hard. You know, I'm kind of a laser expert. Oh, there's a gap here, we need to speed up. Yeah, those lasers are getting in the way, but I think we can handle it. Just need a good run-up, you know. Alright, one, two, three, go! Alright, we did it! Phew, glad I didn't touch that laser either!

Oh, there's a wall of redstone here. What's it doing? Ah, our chest! Ah, I get it, we just need to dig it up. Alright, got it. Well, that was an easy challenge. Alright, let's shoot this button, and I knew it! The wall is breaking down. Just a little more... Boom, boom, boom, and it's done. Almost there, guys, almost there! Look, it broke. What's ahead? Oh, it's a reward room, guys! Look at that armor, those beds, and some cool stuff. Let's grab everything and head outside to see what's there.

Alright, guys, I'm outside now. Let's check out the trophies from the first red house. Oh, we got some clothes here. Look how stylish I am now. And a sword, a pretty cool sword, although not as awesome as a diamond one. Let's see, it deals six damages. Alright, that's not bad! And here, we have a whole car. Let's try to drive around a bit. Well, you know, there's one problem—I'm not really good at driving. Okay, let's turn the steering wheel, come on, go forward, I'm pressing the gas. Come on, car, move! Well, I guess it's not working for me. Okay, forget about it, let's move on.

Next up, we have an orange house, and let's tackle the challenges there. Alright, opening the door, and what's waiting for us? Of course, what else could it be? Parkour, man, I just hate parkour. Well, alright, gotta do it anyway. Let's be more careful, careful with the jumps. Yeah, here we need to be extra careful because if I fall into the lava, I'm toast, literally. Okay, now we need to jump to this spot, just like that, and now onto these platforms. Nothing too difficult. Phew, guys, we're almost there! Just one more tricky jump, and we're done. Whew, thank goodness I didn't touch that lava! Now, we have a maze made of lava. Let's be cautious and find our way through. Oh, and there's a chest! Someone tried to hide it, but you can't hide it from me. And look at all these donuts! I'm taking everything. Taking it all with me. Alright, let's keep going... Wait, what's up, dude? What are you doing here? Oh, I see, looks like we can exchange the donuts for all these items. Let's take this energy drink. And here's a chair, some kind of thing. I don't know what it is, but let's take it all and see what trophies we got from this villager.

Alright, guys, I'm outside now. Let's see what trophies the villager has for us. Alright, this is a backpack where we can store our stuff. Makes sense. And here we have some interesting metal blocks. Alright, we got an orange and red sword now. Cool! And this chair, well, I have a similar one at home. And here's another energy drink. Let's put it aside for now. Oh, I know what this is! It's a car, and here's another one, an orange one. I don't like it as much as the red one, but I still want to give it a try. Maybe I can go for a little ride. Alright, here I go. Whoa, why is it going backward? Come on, car, turn around! Okay, it's finally moving. Not that way, though. Come on, go forward! I'm pressing forward, guys. I don't get what's happening here. Oh no, guys, I got into an accident. As you can see, I really can't drive a car, so let's not do that and head to the yellow house. Let's see what challenges await us there.

And here we go, guys. Of course, it's another parkour challenge. And you know what? It's my least favorite kind—stair parkour. I just hate it. I'm not good at jumping on these stairs, you see. Alright, let's start this challenge. Okay, we jumped here, and now we need to be careful and run up... and hop. Whew, I'm really not good at this, guys, as you can see. I can barely do it, and I really hope I don't fall here. Let's jump here. One, two, three, and we made it. Alright, just a little more to go. Where to next? I don't get it. Oh, I see, we need to jump onto these stairs. Well, guys, this is a pretty tough jump, but let's try it. Oh yeah, I made it! I made it! Phew, guys, I did it. Well, now we just need to be careful not to fall into this lava. Okay, this jump is not that hard. We made it! I passed this parkour challenge, guys.

Alright, guys, next up is a challenge with dynamite. Well, you know, dynamite is pretty dangerous, so we need to get a good run-up. Let's start running on the count of three. Alright, one, two, and three. Come on, faster, faster, faster, faster! Look, it's falling! Hurry, hurry! Alright, I made it, guys, and now it's gonna explode. Look at the huge hole it made, guys. Wow, that dynamite really did a number. I'm just in shock!

Alright, guys, I've calmed down a bit. We need to continue with the challenges. Here we have some rails, and there's a minecart in the chest. We need to ride the minecart here. Let's be careful, get in. Well, this isn't too hard, actually. Just need to be cautious. Okay, and here it hits me again. Oh, the minecart's going back. Oh well, let's just say I earned these trophies, guys. Let's see what's inside the yellow house.

Alright, guys, I'm outside now, and let's see what cool things we brought from the yellow house. Oh, these are some golden, tasty... wait, no, these are gold ingots for crafting. I got confused. Alright, never mind, let's see what else we got. Oh, it's some kind of magical stick. It probably gives me some superpower, or maybe it doesn't do anything special, but it looks really cool. Alright, let's see what's next. And here we have... something, I don't know what it is and why it's even needed. It's probably another magical thing. Please write in the comments what it is, guys. Alright, friends, next up is the green house.

Hmm, green is such a calming color, and I think the challenges here will be quite easy. Oh, we have scissors here, let's take them. Ah, I know what to do. We just need to dig a passage through this foliage. Alright, let's dig, dig, dig... When will this end? Where's the end of this foliage? Okay, we're done. And there's a chest here, and some seeds. I don't really understand why they might be useful, but hey, maybe they have a purpose. But here we have a maze and a lever. Let's activate the lever. I don't know, aaaand we have a chicken here. Let's guide it through the maze. Alright, come on, little chicken, follow me. Walk, walk, walk. Come here. Well, this is quite an easy challenge, look, I've almost passed half of the maze. Not much left here. Alright, hop, look, there's a hole left from the explosion. I hope nothing else got destroyed. Come on, chicken, come on, almost there. Yes, we made it to the end. Look, the doors opened, and... wait, is this some kind of joke? There's only one flower here. What? Why just one flower? Maybe there's a secret passage or something, or maybe there's another hidden chest. Well, guys, I'm pretty disappointed with this green house. Just one flower, really? Alright, let's move on and tackle the other challenges. I'll keep this flower for myself and plant it in my house.

Yo, dudes! Up next, we got this blue house. You know, it's got that sick color, like the sky. I'm really diggin' it. And guess what? We got some more parkour action here. Man, I'm so over parkour now. I hope there's something more interesting to do. Alright, let's give it a go. You know I'm a parkour expert, but stairs are just not my thing. Let's jump over here, and over there. But what's next? Hm, maybe we gotta open this and jump in. Yeah, let's do it! And then, and then, we gotta jump onto the edge of this hatch. Now we can climb up here. Careful not to fall, guys. Jump over here. Alright, now we gotta make our way up there. Come on, let's do it! Man, these challenges with opening and closing hatches are pretty cool, right? And here, we gotta cover some serious distance. I hope I got this. On the count of three - one, two, three, let's go, let's go! Yes, I made it! Whew, I thought I was gonna fall for real, guys. Alright, let's jump over here and over there, a little more, and done! I completed this challenge. So what do we have in this chest? Ah, some armor and a sword. Let's gear up. I used to have red armor, but check me out now, rocking this pink armor. I look like a clown or a candy, you know? Hilarious! Alright, guys, I still gotta go through more trials. Now I got a sword with seven attacks, and there are some people over there. Let's go in. Hey, guys, take it easy. No need to get rough. Whew, you guys barely scratched me. Man, that scared me. I didn't expect them to start attacking me. Seems like it was part of the challenge. Alright, let's collect everything that dropped from them. I don't know what it's for, but let's grab it all. And there's a door here with a button. I did what I was supposed to do, and we completed this trial. Let's go inside and there's a villager here. Dude, you better not attack me. I think he's pretty chill. Let's see what he's got. Oh, nothing much, just some diamonds, a diamond pickaxe, and some weird thing. Let's take all this stuff. And let's take this block too. How do I grab it? Ah, got it. Gotta buy blocks and then we can purchase this thing. Alright, villager, let's bounce and check out the rewards for all these challenges. Come on, let's see what's up in this blue house. Look at all these diamonds I got now. I can just be tossing them around. Check it out, I got way too many. And there are so many blocks too. I even got this awesome pickaxe. Look how it smashes things. It's crazy fast! And what's this other block I got? Let's see. Huh, it seems kinda useless. I don't know what

it's for. Oh wait, if I click on it, check this out - it builds a whole multi-story building! No way! Look at what it constructed, guys. It's unreal! I never expected it to do something like this. Dang, dudes, I take back everything I said. This block is super rad. Look at what it built, it's insanely cool! Man, I don't regret spending all those diamond blocks on it.

Hey, guys! We're up for the blue house now. Let's see what cool challenges await us here. And here we have... an axe and some doors. Huh, no explanations on why we need them. Alright, let's clear out all the unnecessary stuff. I'll take it all with me, guys. Don't worry. Oh, there's a water-based challenge here, and you know I'm not a fan of water trials. Can't stand the thought of drowning. Well, alright, let's move on and check out this lapis lazuli. Ah, I get it now, the doors are needed to create, you know, what they call an air pocket, I think. Yeah, let's take the doors and keep going. Alright, let's place them here, and we got more lapis lazuli. Let's collect it too, take the doors, and head towards the last chest to check it out. And there's more lapis lazuli here as well. Let's take it and head for the exit. Well, that wasn't too hard, not hard at all. Hey, guys, for some reason, I ended up with three doors instead of one. It's pretty weird. If you know why, please let me know in the comments. And there's some kind of mechanism here, and making a lapis lazuli block seems pretty straightforward. It's not difficult at all. Let's do it. So, what do we need to do? Ah, place this block here. Got it. Well, this is a pretty cool challenge, guys. And this whole room with trophies, let's claim ours. Look at this, there's some armor here. Let's take it all and see what other rewards we have here. Alright, dudes, I'm outside now, and check out the award. We got this stylish blue armor, and it probably gives some cool effect. Maybe it allows me to breathe underwater, 'cause we had water-related challenges before. Maybe there's something else too, but one thing's for sure, this is lapis lazuli armor, that's pretty clear. And hey, I also got this super awesome sword, guys. While I was running, I checked what it does, and it's just insane. First of all, this enchantment gives me these cool effects floating around me, see? And secondly, this sword deals a thousand damage, dudes. Yeah, you heard me right, a thousand damage! I'm gonna be unstoppable. Look how it smashes everything in my path. This sword, I'm telling you, it'll make me invincible. And here's some stick and this block. I don't know what they do, let's check them out over there. Maybe the stick is just decorative, or maybe it does something else, but I'm not sure. Look, I placed it here, and nothing happened, although maybe it's related to the stick somehow. Wait, whoa, check this out! Look what it did! It created a whole lake, guys. One click of this stick created an entire lake. Now, that's some seriously awesome trophy, guys. I think it deserves a like.

Hey, guys! And here we have the last house, the purple one. Let's see what awaits us here. I hope the challenges and trophies are just as cool as in the previous houses. Well, hello, sheep! Let me through, please. So, what do we have in the chest? Oh, scissors again. Alright, let's take them and move on to see what's next. Alright, sheep, make way for me, and you, purple sheep, too. And what do we have here? Oh, a lava lake. I wonder how I can get to the other side, guys. I'm not sure. Although, maybe we need to shear all the sheep and use their wool to build a bridge to the other side. Yeah, that doesn't seem too difficult. You know, I'm an expert in flying stuff. So, let's shear all

the sheep, collect their wool, and build a bridge, guys. Well, it's not that challenging, I know. Alright, I've collected all the wool. I've sheared all the sheep. Let's build that bridge now. Okay, guys, let's build, build. Well, I hope I have enough blocks. Oh, I'm running out of green ones. Definitely not enough. Maybe I have some other blocks. Alright, let's check yellow and some others. Alright, we're good. We have enough of everything. Alright, let's keep building. Just a few more blocks, and we've built the bridge. And here we have a maze of doors. Well, I can handle any maze, guys. No problem at all. Let's go through, go through, and a bit more. I'm not sure what happened. Alright, just a little left. How do I proceed here, guys? Where should I go? Oh, I get it. I need to use this door trick. Ah, yes! Look, we jump like this, whoops, and there we go. I made it up here. And now, there's probably one last challenge, maybe. Oh, yes, it is the last challenge. Look, there's a chest with rewards already. Alright, let's quickly finish this task then. Okay, so here we need to draw something, I think. Ah, I got it! We need to draw something to open the doors, but what can we draw? Well, I guess a lever, maybe. I think that's it. Let's take some color and start drawing. Alright, let's draw this as the base for our lever. Look, I drew it. Now, we need to take another color. Let's use gray, and let's refine the base. I think it'll look better this way. And we need to add a handle that resembles the lever. Okay, one more here, and done! Let's see what happens now. Alright, just as I said, the lever appeared, and now all that's left is to open these doors and claim our rewards. Alright, guys, let's see what awesome trophies we have here. Look, let's collect everything we can. I'm taking it all. And, uh-oh, I think I've filled up my inventory. Alright, what's this grass? Oh, no, I shouldn't have done that, probably. Well, alright, let's go outside and see what rewards await us there. Alright, we made the jump, let's go. Alright, guys, I'm out of the last purple house, and let's see what trophies we have. Oh, I got this armor, let's take off the old one and put on this new, super cool, purple, demonic armor. Look at me, I look so awesome! This is insanely cool, guys, I love it. And there was some sort of sword there, I think. Oh, no, no, it was a mace. Look at how cool it was, but it suits this armor so well. Look how cool it is. And we also have a shield for protection, also demonic. Look, it's a whole demonic set, I think. And that's all, all the trophies. Listen, guys, I really liked the trophies from this last house, especially the challenges in the yellow house, where we had to run through dynamite. That was so cool. So, guys, let me know in the comments which house you liked the most, which one had the coolest rewards, and which one had the most challenging trials. And don't forget to like and subscribe to the channel. Take care, everyone!
