Editor Design
Develop

New style for editor GrapesJS

HTML pages editing based on ready-made items. Our team drew up a new design for the GrapesJS editor.
Stylish design, user-friendly and multifunctional.

UX/UI mockups

Our 9 years experienced designers developed editor mockups. Our priority was given to white colors with bright elements.

HTML editor

An open source editor with using ready-made elements to create website pages. There is ability to work with both Web page and Email letter.

Multifunctionality

There are checking the page on mobiles, tablets and PCs and the settings for each item on canvas. Displaying item limits, full screen, export, import, cleaning out canvas, adding new elements and preview.

“

"Habitasse molestie in quis augue vulputate vitae sollicitudin et molestuada pulvinar elementum massa mattis habitant nisi ut eubmod et facilis lacus, pulvinar urna, semper est nam turpis amet, nulla sed sed fella, at nisi, est tellus ultrices est mattis luctus suspendisse porttitor ornare libero volutpat ut sed."

”
