

## COMFORTBUD: results of 2018

Design Institute "Comfortbud" continues to strengthen its position in the design and construction market of Ukraine due to according to the consistently high quality of services and high professionalism of employees. 2018 was rich for us on interesting projects, furthermore it added provided us with even more practical experience and confirmed the impeccable reputation of the company.

So, last year were started the design of about 60 objects of various purposes and complexity throughout Ukraine. Consequently, the design of about 60 objects for various purposes and complexity throughout Ukraine was started during previous year. In particular, in 2018 due to our projects 2018 is known for such our projects:

- was built a logistics complex was built in Pasiky-Zubrytski village of Pustomyty district in the Lviv region;
- was constructed the first stage of the residential complex "ARENA" was constructed on K. Miklosh street in the city of Lviv (official site);
- was completed the construction of the first stage of the residential complex "Panska Vertycal" was completed on the Nizhankovsky street in the city of Stryi, Lviv region, which that became the winner of the 18-th International Crystal Brick Competition in the nomination and got the award for the best housing and commercial house (official Facebook page);
- were built the stores of TM "Rodynna Kovbaska" were built in the city of Lviv and Uzhgorod, according to the projects of our company, (the official site);
- was constructed a multifunctional public building was constructed on the Shevchenko street, 11 in Ivano-Frankivsk on the Shevchenko, 11 street (official site);
- was built the apartment building was built in Lviv on the Bojkivska Boikivska street in Lviv (official site).

Also, according to our projects, other interesting objects are being still built, including:

- polyclinic of Ivano-Frankivsk Archeparchy of the UGCC on the Garbarskaya street in Ivano-Frankivsk (official site) (this project was awarded a certificate of with honor from the customer);
- residential house Z119 on the Zelena, 119 street, 119 in Lviv (official website);
- residential houses number 6 and number 8 in the LCD "PASICHNY" on the Pasichna street in Lviv, by the way the company has developed a stage P of the project (official website);
- residential complex "Budova Medova" on the Skoropadsky street in the city of Truskavets, Lviv region (official site);
- a bulk storage of silage type sugar plant with a capacity of 35 thousand 30,000 tons in Starokonstantinov, Khmelnytsky region;
- the administrative building of the Publishing House "Vysokyy Vysokyi Zamok" on the Heroiv UPA street in Lviv (official website);
- the second phase of the residential complex "ARENA" on the K. Miklosh street in Lviv (official site);
- a three-section residential building with a public center "Prestige Hall" on the Shevchenko street in Stryi, Lviv region (official site);

- apartment building "Mjata" with built-in public premises on the Lysyka street in Vynnyky, Lviv region (official site);
- residential complex "Komilfo" on the Ivasyuka Ivasiuka street / st. Lubykh-Parakhonyak in Vynnyky (official website);
- residential complex "Zelenyy Zelenyi Dvir" on the Velychkovskyi street in Lviv (official website);
- postal and logistics center of PJSC Ukrposhta in the Pasiky-Zubrytski village of Pustomyty district in the Lviv region, which concepts the concepts of which was developed by our company;
- the apartment building "IMPERIAL" with built-in public facilities and underground parking on the Boryslavska street in Truskavets, Lviv region – by the way the construction has started;
  - 26-storey residential building with underground parking in Kyiv – the design of stage P has been started;
  - 5-6 lines of the FM "Logistic" logistics complex FM "Logistic" in Dudarkiv village, Boryspil district, Kyiv region (Logistic FM is one of the leading logistics operators in Europe and Asia) - construction is underway;
  - educational campus of the "SHAG" Academy "SHAG" in Lviv on the Malynova street – construction has been planned.

In addition, the company "Comfortbud" became the winner of the open bidding for the design of one of the first in Ukraine a recycling plant, one of the first in Ukraine, whose construction construction of which is planned on Plastova Street in Lviv with the involvement of EU funds investment. This type of plant is unique for Ukraine, at the moment it has got no analogues corresponding establishments, because it contains a full cycle for the processing of solid waste. For the city, the construction of this plant is a priority issue of the top-priority, because from the moment the landfill is closed in village Grybovychi, MSW are transported to other polygons in the area and even beyond its limits boundaries/borders. Despite the fact that Lviv annually produces up to 250,000 tons of MSW, the introduction of an integrated system for management of MSW, that is, the streamlining the entire process - from collection to recycling and final disposal, will significantly improve the ecological situation in the city.

Another significant event for the our company was the launch of ID Consult. This unit provides a wide range of consulting services in real estate at all stages of the project - beginning from the purchase of the site to the completion of construction, as well as during the operation of the object during all the process of the object operation.
