

The background image shows a person's hands using a laptop and a smartphone, both displaying the Fopay logo. A cup of coffee is also visible on the desk. The entire scene is overlaid with a blue tint and a grid of white dots in the upper right corner.

Fopay Merchants module

New era of digital entrepreneurship

Current problems in the market

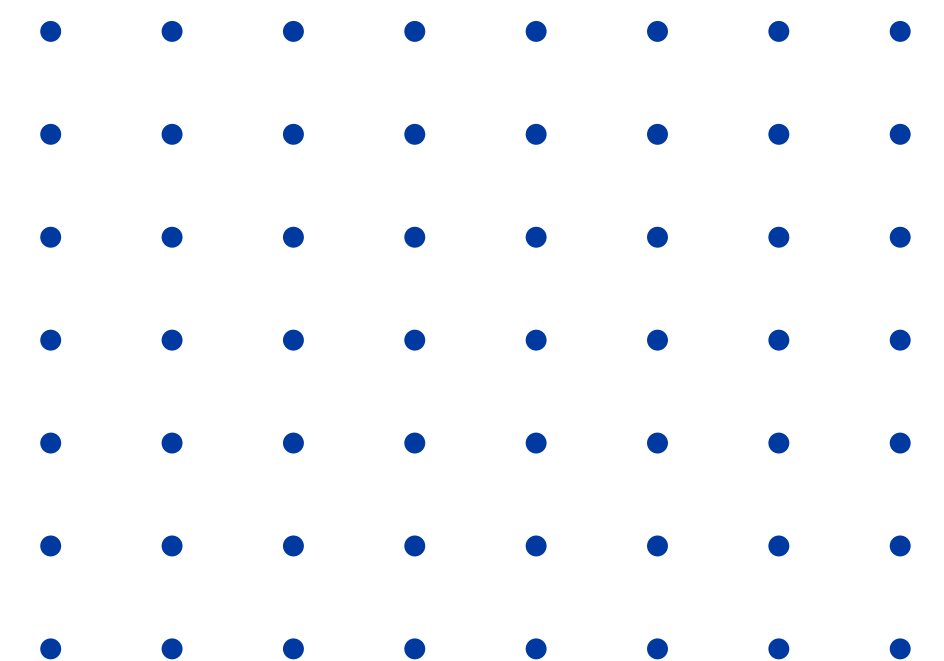

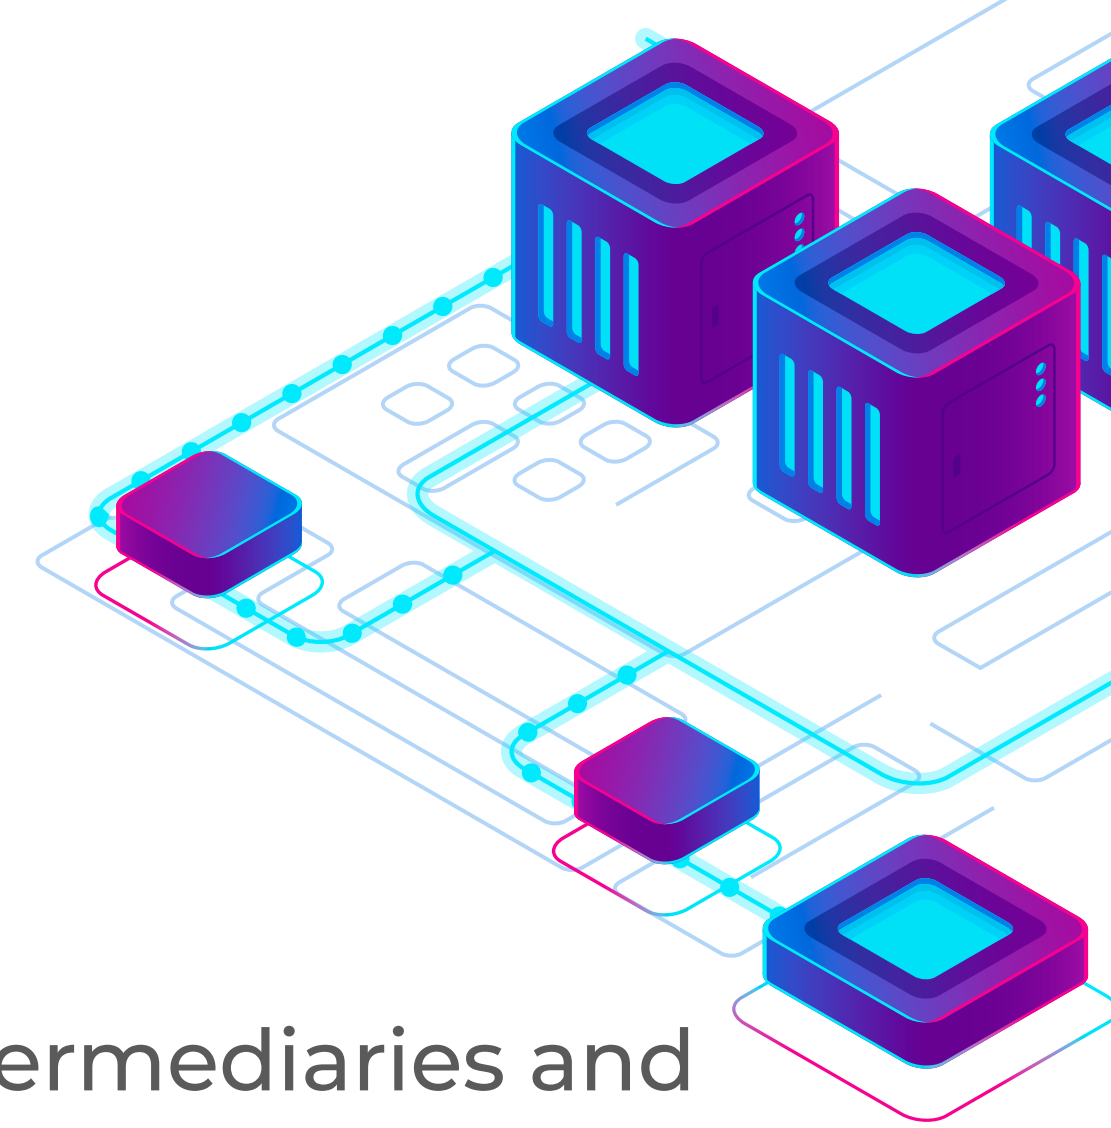

- Traditional banking can no longer provide convenient service that would meet the needs of merchants and vendors
- Lack of Security : Third parties may easily get access to confidential Data
- Lack of International Coverage : Each country provides separate payment systems
- Low transaction speed : Most transactions require bank verification, which may take weeks

What is Fopay?

Secure Blockchain-based transactions for your business

- FoPay is a transparent payment system meant to eliminate intermediaries and strengthen merchant-user connection.
- Conduct fast and cheap transactions and store your income in a secure multi-currency wallet.
- Reach new markets and clients instantly!

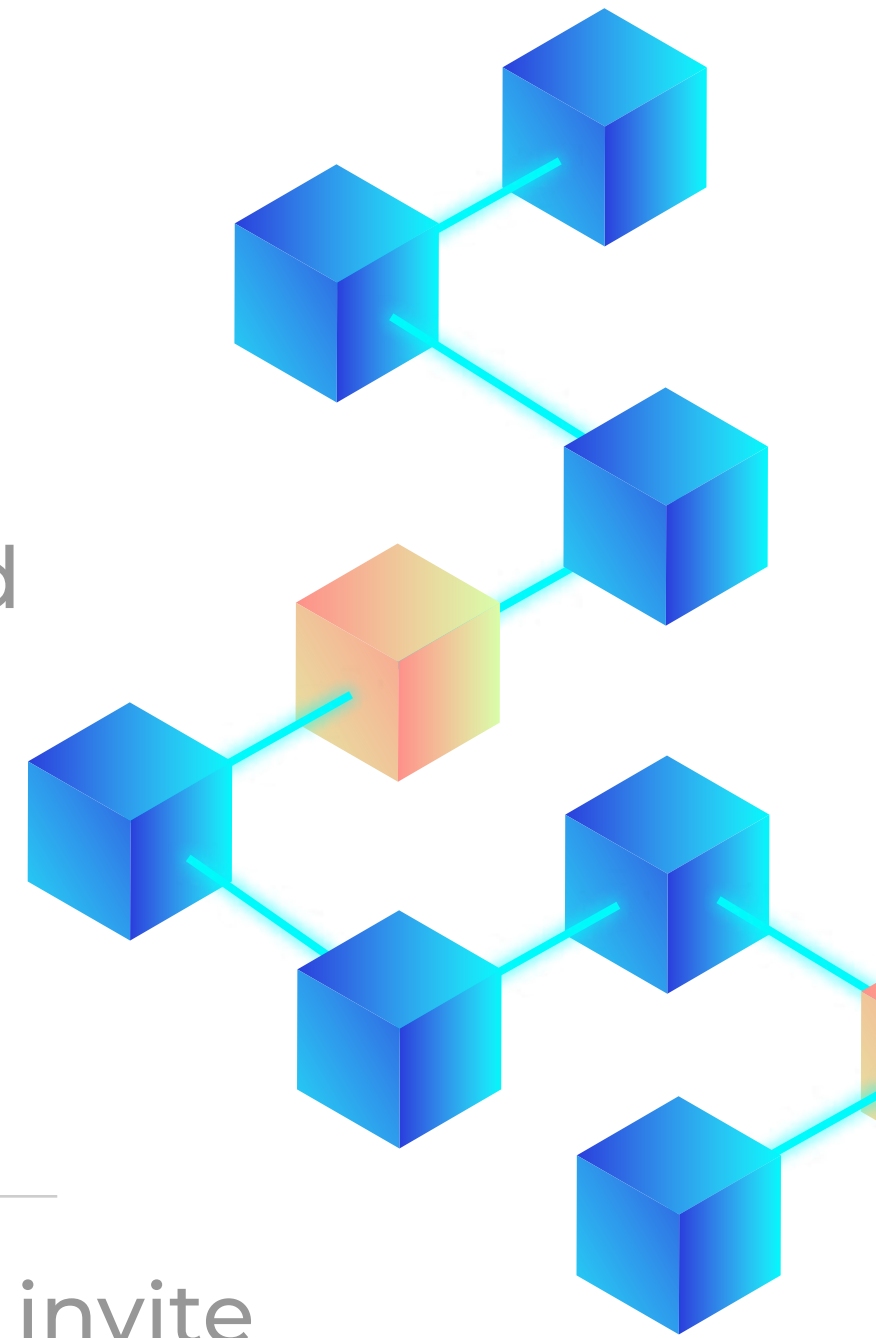

Solution FoPay provides

FoPay replaces traditional banking with an innovative Blockchain-based payment system with robust technology and A to Z support

For business owners we prepared transparent, simple, and clearly understanding payment module for existing any kind of business

Vendor's back-office gives a possibility to add several trading platforms, invite other users, check history of transactions and so much more
