Introduction

I would like to introduce my team where I am a leader. We are a local government team. We are faced with the task - to prepare the city for the New Year.

My team

My team members are members of the local council. Our responsibilities are the same - negotiate with suppliers, purchase Christmas decorations and cooperate with workers to install decorations throughout the city.

Leadership style

By my leadership style i want to build trust in the work environment and impact my team in a positive way. So my leadership style will be affiliative.

My objective is to build calm work environment where everyone does his job and focused on his goal.

Problems I can face when members of my team are representatives from different countries

In my team there may be a misunderstanding of each other, and then disputes. To get rid of this, you need to communicate more and get to know each other.
