PLACE/DATE: DELAWARE, UNITED STATES - OCTOBER 11TH, 2017

CONTACT: SERGEY GRYBNIAK

Opporty has announced its public token sale, to begin October 18

ICOs have been popping up in many news articles and press-releases since the discovery cryptocurrencies, and ICOs have become goldmines for investors. Opporty's decentralized marketplace is now poised to enter the ICO world. <u>Opporty has announced</u>its public pre-ICO, to begin February 1st. We expect great things from Opporty once they reach their target of 80000 ETH.

What is Opporty?

Opporty is an innovation-driven company that has launched a decentralized blockchain-powered marketplace. It is designed to facilitate interactions between small businesses and service providers, making their interactions safe and easy. Opporty distinguishes itself from the majority of lead-gen companies by introducing smart contracts and Escrow-Judges, two main highlights that ensure immutability and protection from disputes and fraudulent activities. With Opporty, small businesses are kept safe from legal proceedings and fraudulent activities by contractors. Smart contracts also guarantee that a contractor receives remuneration for provided quality services. Opporty provides an environment where both contractors and businesses can trust each other.

OPP Tokens

OPP tokens are based on Ethereum and will be supported by the services of the company. Unlike many companies engaged in <u>ICO</u>, Opporty works hard to give their tokens a solid foothold. To ensure their position, Opporty will buy

back OPP tokens and pay fiat to their customers, meaning we can expect this cryptocurrency to remain stable.

Team at Opporty

Opporty is a company led by professionals with many years of experience in ICO, cryptocurrency and business activities. The Opporty team is dedicated to creating a superior product that improves the way companies conduct business. The Opporty ICO offers customers stable cryptocurrency and a business platform with unique and innovative features.

Value of Opporty Business

Doing business in the modern world can be tricky and stressful, especially for small businesses who cannot compete with more established companies. Small businesses rely on experienced and quality contractors to help them fulfill their projects. Opporty provides a framework for contracting parties to interact in a secure way. Opporty's services are free to new users for a limited time, providing businesses an opportunity to establish their reputations. Users can earn additional tokens by sharing information and experiences with the opporty community, adding value and building recognition as leaders in their niche. Opporty's knowledge-sharing platform is designed to create a collaborative and supportive community. The authority and relevance of shared information will be reviewed by Escrow judges.

Bottom line

Opporty is a reliable company for investors. Its ICO offers a chance for you to become part of a unique business entity poised to change the world for small businesses. According to recent statistics, many small businesses fail because they cannot compete with established companies and big corporations who dominate the marketplace. Opporty levels the playing field for small businesses and startups, opening the marketplace to businesses with new and interesting concepts, with potential to change the world.
