

NATALIIA LAGADZE

Hello ! I'm Natalia, a first-year student at the Lazarski University in Poland. 1.5 years ago I started to get interested in translation on the Internet. Recently I've been looking for a job in this field. I don't have much experience yet, but I'm ready to work and pursue my goal. I translate in SmartCat, but I quickly learn new applications. I'm a calm and balanced person ready for cooperation. I will complete all tasks on time and will not take on work that i'm not sure about. I'll be glad to cooperate !
