Personal Statement

I am glad to get this opportunity to express myself and showcase what I value and my strengths. I have always wished to be the best in life; therefore, I have been engaging in activities that add value to my life and improve me. I have been interacting with people who have always impacted my life positively. The nature of the people who have been close to me and those who have guided me has encouraged me to be who I am today. My love for business and management courses arose from interaction with a close relative who has been a manager in a limited company. The character portrayed by the relative has always encouraged me to work hard and also maintain focus on business management. Throughout the IB, I pursued a business and management course after my relative inspired me through his leadership and the success that the business achieved during his reign. I was close to my Uncle, who always encouraged me to follow my passion and learn better suited to my interests. He has been iconic in my life as he has always taught me leadership qualities and how to take charge at home when my parents are away. Throughout the course in business and management, I have learned that leadership is cultivated, and a leader has to take charge in all situations to ensure that things run accordingly. My strengths include being honest, straightforward, composed, and determined. I am always focused on doing the right thing and also following set rules and regulations. I am good at maintaining order in any gathering I am in because I believe I have the power to do so. I am a point of change in various circumstances because while I was attending IB-level education, I was put in charge of student affairs, and this has always been a chance

I am thrilled to apply and be a part of the institution, a place where I have dreamt of learning from the best. I pledge to give my all and strive for success in order to raise this school's standing even higher.

I am grateful to have this opportunity to share my experiences and strengths. I've always strived for excellence in life, so I made sure to engage in activities that would provide value and help me improve. Surrounding myself with encouraging people has had such an immensely positive effect on my character. Furthermore, a close relative of mine who is a manager at a limited company was instrumental in stirring up my passion for business management courses. All these things combined laid the foundation for who I am today - confident and capable!

My beloved Uncle has been a strong source of motivation in my life, forever pushing me to give all I have toward achieving success. His character and leadership spurred my ambition to pursue a business management course during the IB program; what's more, his vast knowledge equipped me with essential qualities such as assertive decision-making that enabled me to take charge at home while both parents were away. It is by no means an understatement when I say he led me down the path of success!

My core values are honesty, directness, poise, and dedication. My forte is always to make sure the right thing happens and stay within rules & regulations. I am incredibly adept at ensuring order in any gathering, as it is my duty to do so. During my IB-level education, which I attended, I was put in charge of student affairs - thus providing me with a unique opportunity to enhance my leadership capabilities!

to grow my leadership skills. I have unique hobbies, which include exploring and reading more about leadership and successful leaders, and I am always interested in promoting intercultural interactions. I value friendship and also love respecting leaders. Peter Drucker, in a quote, said, "The best way to predict your future is to create it" I believe that I can create my future by taking a course in business and management course, and this way, I can be able to predict my future. I became interested in this institution after seeing adverts on the school website. One of my friends prompted me to learn more about this institution as she schooled from here, and today she is a manager in a well perfuming institution. Attending this school will make me a good manager as I will pursue a course in business management. I am interested in interacting with students from various destinations to learn more about their cultures. I will also impact this institution as I have my culture and will pass the values to my schoolmates. Sharing my culture with diverse students will be impactful to the values that the institution offers to students. I am certain I will contribute to making this institution a better place than I found it. I am an athlete and do well in volleyball and soccer so that I will participate in extracurricular activities. I will be happy and grateful to join this institution because I have always dreamed of learning from hearing. I promise to do my best to improve this institution and raise the institution's flag.

My passions are unorthodox, particularly researching successful leaders and leadership principles to promote global interconnectivity. I deeply value friendship and respect for authority figures. To quote Peter Drucker: "The best way to predict your future is to create it" - a truism that I fully believe in! Therefore, by taking coursework on business management, I can shape my own destiny.

After I noticed the intriguing advertisements from this institution on its website, my friend - who had attended and is now a successful manager in another reputable organization - encouraged me to research further. Consequently, I am keenly interested in enrolling here to pursue business management as it would make me an exemplary manager someday. Additionally, interacting with students of diverse backgrounds will help me gain more insight into different cultures around the world.

I am excited to build relationships with students from diverse backgrounds and cultures while also imparting my own values to the institution. My interaction with these individuals will be incredibly impactful as I believe in making this school a better place than when I found it. Additionally, given that I excel at both soccer and volleyball, extracurricular activities are sure to benefit significantly from my contributions!
