

# “The Power of Self-Expression Through Style”

Completed by Ani Bahirian

# What is style?

Style is a way of showing the world who you are without saying anything. Some people dress bold and colorful, others choose something calm and minimal — both are ways of self-expression.

# How to Find Your Style?

«Your personal style is your story, and it's always unique»

*Finding your style takes time. You can try different outfits, colors, and shapes. Look for inspiration in art, music, people, or even nature. Most importantly — don't be afraid to be different.*

THANK YOU
