# Hello, Teoden

## Welcome to your Firebase project!

Gemini can give you suggestions for Firebase services and solutions for your app

### Next steps with Gemini

[View docs](#)

#### Tell us about your app

Describe your app and Gemini will suggest products to help you get started

#### Add Analytics and monitoring

Learn more about Google Analytics and Firebase monitoring products

#### Build a backend

Firebase offers many backend services, including both SQL and NoSQL database options. Learn more about which services might be right for your app.

#### Add AI to your app

Learn more about integrating AI into your app
