Dear representative of Mattel Inc.,

Recently I read an article about the Mattel Children's Foundation and charity projects, which were sponsored by your company. I wanted to thank you for your support of kids from all over the world and for wide diversity of your products! Nowadays Mattel toys – is the standard of quality, that parents can trust to.

As the Head of parents committee, I would like to draw your attention to kindergarden #203 'Aistenok' which located in Odessa, Ukraine on 68A Semena Paliya street (please see exact location on Google maps – [Kindergarden #111](#)).

Our childcare center is functioning more than 35 years and **more than 300 kids** are studying in it. Every year more **than 100 infants** enter and approximately 100 kids graduate from kindergarden. The total area of territory is 4167 square meters, including playgrounds, pedestrian precincts and green space.

During all that time (35 years of work) root system of trees and heavy rains ruined the asphalt on playgrounds and pedestrian precincts. Currently we have a lot of massive cracks and holes in it. It cause a lot of kid's traumas almost every day. This is the reason why we are currently looking for support in repairing of precincts and installation of soft (rubber) covering on playgrounds.

From our side we can provide full cooperation, advertising and invitation of local (and probably county) media. You can contact me on my mobile Thank you in advance and looking forward for our further cooperation

Sincerely yours
