

PORTFOLIO

GRAPHIC DESIGNS

My name is Ion Gaibu, and I'm an aspiring graphic designer passionate about creating logos, custom backgrounds, and YouTube covers. I love turning ideas into visually striking designs and exploring new creative styles. Over time, I've worked on various projects, including custom logos for clients, which helped me refine my skills and gain valuable feedback.

This portfolio showcases my creativity, attention to detail, and dedication to delivering high-quality graphic solutions. In every project, I strive to combine functionality with aesthetics, ensuring the final design meets both client requirements and modern design trends.

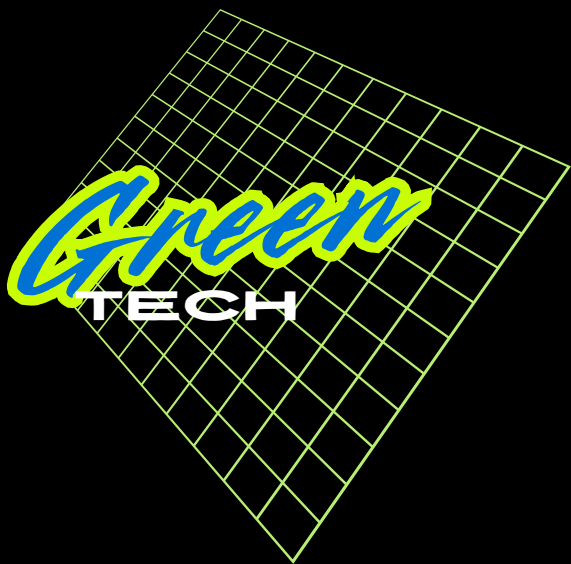

I'm always open to new challenges and excited to collaborate on innovative ideas. If you like what you see, feel free to reach out!
