# Experience

---

## Designer / UI/UX / Front-End Developer (JS-middle) @ Freelance

June 2014 – Present.

Projects:

**zaranga.com** - online houses/apartments booking system.

UI/UX, creative design, HTML, CSS, Light JS. Work finished.

**WeLeadUSA** - social network about/for politic(s) in the USA.

UI/UX, creative design. Work finished.

## GUI Engineer @ GoSave

Startup. Closed.

July 2013 – June 2014.

**Development/Responsibility:**

Design, UI/UX, Responsive layouts, HTML, CSS, JS.

**Environment:**

Adobe CS 5.5.

**Description:**

“ GoSave is a free mobile advertising technology that enables app developers with many apps to easily link those apps together, cross-promote users across those apps on a daily basis, and make more money from a user's lifetime across all apps. Any developer can integrate our light-weight SDK into their existing Android or iOS app in minutes. Connect, control & view key app metrics from a web dashboard. And let our "SmartCycle" technology target messages on top of the app to users. The GoSave platform removes the guesswork from user lifetime monetization and helps developers create more sustainable freemium business models so developers can focus on doing what they love: building great content.

## Front-End Developer @ ebuilders

ebuilders.nl

June 2011 – April 2013.

**Development/Responsibility:**

UI, Flash, AS, HTML, CSS, JS, Graphics Vector / Raster.

**Environment:**

Adobe CS 5.5.

**Projects:**

**KLM (Royal Dutch Airlines) Holiday portal: holiday.klm.com**

“ The KLM Leisure platform intends to inspire visitors in their choice for their next holiday experience and drive ticket sales for intercontinental travel. The goal was to develop a visually inspiring platform / portal to the KLM electronic booking tool to increase intercontinental travel ticket sales.

**Bannerspace by ebuilders: bannerspace.net**

“ Bannerspace is a robust, easy-to-use banner CMS, enabling advertisers and agencies to manage campaigns at their fingertips. With Bannerspace, you can quickly update the content of your banners, without any technical skills or additional costs.

## UI/UX Designer / Developer @ ICCOSS AG

Startup. Closed.

June 2009 – April 2011.

**Development/Responsibility:**

UI Architect, JavaFX, HTML, CSS, JS, Graphics Vector / Raster, Design, Mockups for magazines and Flash animation for advertising.

**Environment:**

Adobe Fireworks CS4, Adobe Dreamweaver CS5, Adobe Flash CS5, NetBeans.

**Description:**

“ ICCOSS is a unique system which can be tailored specifically to your lifestyle so that you have easy access to your digital photo, music and film libraries at all times, everywhere. Our expert team analyses your particular needs and, based on what you require, designs solutions that anticipate your own way of living and traveling. You enjoy the same secure access to your libraries wherever you are, at home, at work, in your jet, on your yacht and in your holiday residence.

## **UI/UX Designer / Front-End Developer @ coComment**
