MIGUEL TAPIA - PROFESSIONAL PHOTOGRAPHY IN ATLANTA, GEORGIA

Photography is more than just capturing a smile. It's about seizing a moment in time and creating memories that will be forever cherished. I take great pride in shooting photos that tell a tale worth more than a thousand words.

I call them stories.

MIGUEL TAPIA - PROFESSIONAL PHOTOGRAPHY

Photography is more than just capturing a smile. It's about seizing a moment in time and creating memories that will be forever cherished. I take great pride in shooting photos that tell a tale worth more than a thousand words.

My work isn't just point-and-shoot - it's art. By approaching all my shoots with an artistic angle, I can craft a truly magnificent picture that blends the best in art and photography. I enjoy working with conceptual portraits, photojournalism, action photography, editorial photography, sports photos, and black and white photos.
