

ABOUT OUR STUDIO

We make everyone look AMAZING!
Whether through Photography or
Cinematography, that is our mission, and
our goal is to create family heirlooms in the
most artistic way every single time. With
over 17 years of experience serving the most
discerning clients around the world, there's
no challenge too tough, an event too big, or
country too far—our studio has seen it all.

ABOUT ALAIN MARTINEZ

Alain founded the studio after traveling through Paris in 2005. Since then his studio has evolved to offer a wide range of services under Photography and Cinematography, and his career has expanded beyond the lens. Today Alain mentors photographers around the globe and he is asked to speak at various conferences in the US and Latin America. He coaches photographers around the globe to harness the power of their skills only as a tool to achieve a balance in life and business—a Japanese concept called “Ikigai”. Above all, he is grounded with a judgment-free, open-book approach, which makes working with his studio an experience, and learning from him an opportunity not to miss.
