

ATTENTION!

**KILLING ANIMALS FOR
CLOTHES IS A CRIME**

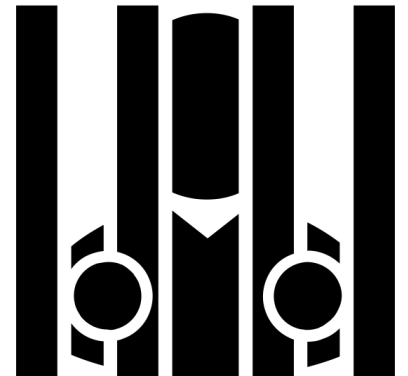

On the one hand, fur clothes are much warmer than synthetic ones. In some countries, where the weather is very cold (for example Russia), fur coat is necessary and hunting for animals is reasonable.

Usually in these countries hunting is allowed, but in some special areas.

On the other hand, some species of animals, whose skin is used for making fur things, are in danger. Most of firms, which produce fur coats, grow animals on special farms, but some of them buy skins from **poachers. It is illegal.**

People **kill** animals not for food, but for **entertainment**. Oscar Wild said: "Murder is always a mistake. You should never do what you cannot chat with friends after dinner." Murder of animals ruins people`s souls.

The animal welfare movement emerged in the 60s.

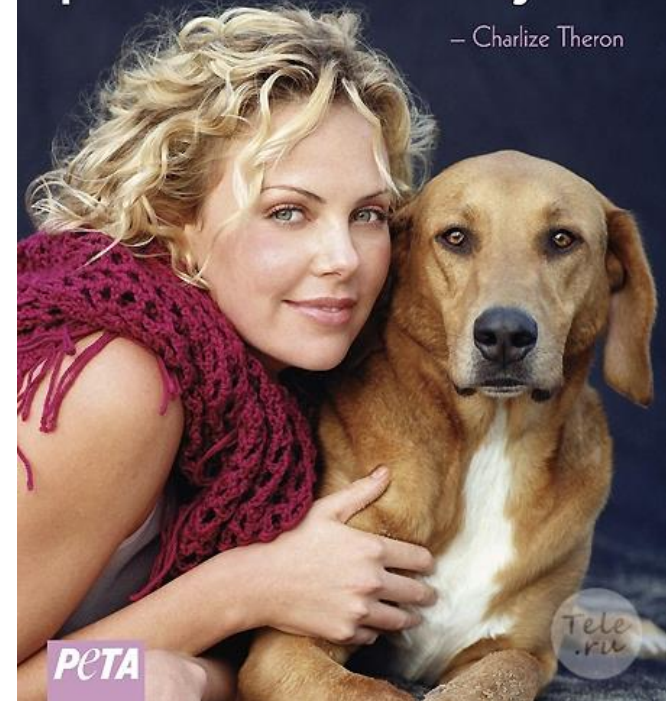

And now the most known is the **PETA (People for the Ethical Treatment of Animals)**. Among the supporters of the organization's there are many famous people.

For example, Charlize Theron took part in the campaign in defense of animals. "If you can not" wear "your dog ... do not wear any fur, please," - called the actress with posters.

**"If you wouldn't wear
your dog ...
please don't wear any fur."**

– Charlize Theron

If you have to be human at least be Humane.
