

Nail Polish Organizer Review

Nail polish is a must-have for many people regardless of their gender. It helps us shape our image and add bright or palette colors to it. Some can boast truly impressive collections of nail polish of a wide range of colors! The problem is, however, that it happens to be quite problematic to store all these diamonds, and if there isn't enough space for every bottle, your room turns into a huge, terrifying mess. But we don't want it, right?

This is where nail polish organizers enter the game and change your routine for better, making your bedroom a neat and nice place to stay. Fortunately, there is a vast range of organizers to choose from, varying in size, color, theme, shape, etc. Some organizers can be huge, others are rather modest in size, with multiple layers to store your nail polish and designed in different styles. How to?

1. How do I make sure my plastic organizer doesn't crack?

Make sure it stays in the shade and isn't exposed to high temperatures. Dropping it can also make the organizer crack easily.

2. How do I choose the right size?

Pay attention to the measurements in the description of each product and read the real people's reviews.

When selecting the size, bear in mind how many nail polish bottles you have; counting them may also help, as many manufacturers provide information on the number of bottles their organizer can hold.

3. What if I received a damaged product or broke it shortly after purchase?

Most sellers have guarantee options so that you can send a defective item back within a certain period of time.

However, there is a chance that you won't get a refund for breaking the product yourself, so please be careful with your purchase!

I looove this cute organizer! The design is just what I wanted, it holds A LOT of cosmetics, I store all my nail polish bottles in the open sections so that I can see them when I chose the right color for this particular day. It's a bargain!

The organizer itself is great and really convenient, it suits my room interior and I totally like it! The only problem is that the bottoms came to me already bent and not flat, which I tried to fix but no success. It's not too big of a problem though, I still can store my stuff on the shelves

Not satisfied with the size, it looked bigger on the photos!! Not sure all my nail polish bottles can fit in. If it's too bad, I'll ask for a refund

I enjoy using the Sorbus organizer, it's high quality and sturdy so that I don't have to worry that it will break or crack or anything. In fact, it's so stunning I wouldn't ask for any other organizer in my room!! I'm reeeeaally into the tree design, so clever! The number of things I can put in it was a big surprise, even though I did expect it to be capacious. Highly recommend it!

I purchased this organizer a month ago and it didn't last long. I woke up one morning and saw that there was a huge crack on it, and I didn't expose it to the direct sun rays or anything.. such a pity! Next time gonna buy anything but cheap plastic

I got it as a wedding present and since then I can't do without this organizer!! IT'S A MUST to have at home if you're into nail polish just like me. Although I must say the drawers have got a bit flimsy recently, but it's not that big of a deal. Just make sure you pull them gently and smoothly, then maybe it will last longer!

The see-through material is so appealing and convenient cuz I can see all my products right away, also love the stand design, easy to navigate. You'll find the screws in the kit to attach the sides, I found it relatively easy. Happy with my purchase!
