

Review on Dead Poets Society

There are some films that if you watch them for the first time at the right age, have the capacity to inspire and embolden you: Dead Poets Society is one such film. It is not a film that it is cool to admit loving. It is uncynical, idealistic and hopeful - not qualities one necessarily associates with film snobs, but what it lacks in critical kudos it has recouped in audience appreciation. It has been voted the greatest school film and it is often cited by viewers as one of the most inspirational films of all time. It certainly inspired me at a time when I most needed it.

Dead Poets Society is a most underrated film by a most underrated director whose inspiring, uplifting and moral tales firmly grounded in reality are not nearly as appreciated as they should be. Here, we see one of his very personal projects, and he shows the visual style and concentration on characters in which he is so affluent. His control of the camera and the characters are very strong and very smooth.

In spite of this film is already 50 years old, the idea of it is still alive. I can't just say it with my mouth. Young people still want to change this world, become something real, become someone, and it's always ruined by something that higher than them: their parents, teachers, just people. They are ruined. This plot about it. The boys wanted to change this world. Their teacher helped. Their teacher was an inspiration. They followed their dream. But all of them became broken.

I will say that it is one of the best coming of age stories for not only adolescents, but anyone. I have personally heard from nine-to-fivers who were inspired by this movie to change the situations of their jobs, careers, relationships for the better. I first saw this movie long times ago, and immediately stamped, crowned and elevated this movie as my all-time favourite. I turn back to this movie over and over again, to find inspiration, solace and of course, entertainment. It is still my all-time favourite, and it still inspires me to seize the day and make my life extraordinary.
